

Workflows That Improve Efficiency and Your Bottom Line

Traditional radiology systems were not designed to support the unique workflows your practice requires to operate. They're costly, cumbersome, and complicated. Let's fix that.

AbbaDox is a marketplace of flexible, scalable, and simplistic solutions that fill in the gaps to optimize and automate your imaging center.

- **Improve the Patient Experience and Reduce Patient No-shows** with enhanced communication, automated scheduling, and better care coordination.
- **Reduce Staff Burnout** by automating referral marketing and digitizing incoming referral orders from both physicians and personal injury attorneys.
- **Stay Ahead of Your Revenue Cycle** and regulations like the No Surprise Act with integrated eligibility verification, patient estimation and billing processes in one cloud-based system.
